- Rawlings next informed the commission that he has looked into an ice maker for the courthouse and a location to place such a machine. The machine Rawlings looked into is an estimated \$2,180. Sheriff Heath Samuels noted that there is a bridge located between two camping areas below the Fall River Dam; the road leading up to the bridge, is the responsibility of the County, but the bridge has no public access. Samuels stated that the Corp of Engineers dictates who/what can travel on said bridge; he felt this should be brought to commissioners' attention, as this might become an issue at a later date.
